

CONSTELLATION'S
RON·RUM·RHUM

Constellation's is a rum brand from the Canary Islands, started by two experienced and creative master distillers as a tribute to the Canary skies, the paradise for stargazers, astronomers, and astrophotographers.

The brand has three impersonations, each named and styled after a significant star: Alfa, Orion and Polaris.

All the rums are distilled at the Canaries in traditional copper alambic "armagnacais" and aged in new oak barrels of various origins and toast levels.

The founders adhere to the purist approach: minimal intervention and no additives—the distillates, barrels and time do the job. Each of these signature rums is a unique blend of great complexity.

Inspired by Polaris, the bright star reliably guiding sailors and travellers for centuries, this unique creation stands out as a lighthouse in the ocean of rums. It is a blend of distillates of outstanding complexity, including very old, resulting in a fragrant bouquet of exotic fruits, nuts, and vanilla blossoms over an impressive background of balsamic and mineral notes. No additives. Small batch production. Limited release. Unique and magnificent.
